The National Nurseries

Lawrence, Kansas

THE NATIONAL NURSERIES

GENERAL INFORMATION

TERMS OF PAYMENT:

1. **CASH WITH ORDER.** Entitles purchaser to premium of 10% in additional nursery stock.
2. **CASH ON DELIVERY.** Net amount of order—No premium.
3. **One-fourth cash with order—Balance on delivery of stock.**

1—**The most economical way of buying nursery stock.** Customers paying for their stock at time of purchase may select additional nursery stock to the amount of 10% of the advance payment. The stock selected as premium will be included with the delivery of the balance of the order, without any additional charge.

Our salesmen are authorized to accept checks payable to THE NATIONAL NURSERIES, at Lawrence, Kansas. If customers prefer, they can remit direct to us.

By paying in advance the customer reduces the cost of his purchase, by receiving additional nursery stock free of charge.

PREFERRED SERVICE GIVEN CASH CUSTOMERS. Customers paying in advance are given preferred service. The stock ordered is reserved for them and these orders will be given extra attention.

2—**Cash on Delivery.** Orders amounting to less than \$50.00 will be accepted for cash on delivery from responsible property owners who are considered prompt pay for their local obligations. Customers ordering their stock to be paid for on delivery are requested to furnish the names and addresses of one or two local merchants with whom they do business, as reference, so we can look up their credit rating.

3—**Advance Payment Required on Orders Amounting to \$50.00, or More.**

Terms—One-fourth cash with order, balance on de-

LAWRENCE, KANSAS

livery of the goods. Upon the amount paid in advance the customer will be given 10% in additional nursery stock, as a premium. Customer will have privilege of paying entire amount if desired, and receiving premium accordingly. This advance payment on large orders shows evidence of good faith on part of the customer and protects us against cancellation before shipment or loss on delivery.

TRANSPORTATION CHARGES. These prices are for first class nursery stock, delivered at customer's nearest railroad station, **ALL TRANSPORTATION CHARGES PREPAID.** We want to emphasize this fact, because the transportation charges, particularly express charges, are almost prohibitive on small orders. We have known of cases where the express charges on large trees amounted to half as much as the purchase price. It is only by combining the orders for a town or city into one shipment by freight or express that we are able to make these low prices for the quality of stock we supply.

PACKING. Every customer's order is individually packed in the best packing material, paper and burlap we can buy for this purpose. All trees and plants are inclosed in heavy paper or burlap, with damp packing material around the roots, to prevent the stock from drying out. Years of experience have taught our workmen to pack an order so it will arrive at destination in as good condition as when it left the nursery.

GUARANTEES. We agree to deliver every order in first class condition at the delivery center, transportation charges prepaid. If the customer will call for his stock on receipt of notice, and plant it promptly, he should sustain little, if any, loss.

WE DO NOT REPLACE STOCK THAT FAILS TO LIVE. The living of trees and plants, after delivery to customer in good condition, is dependent almost entirely upon conditions of soil, weather and after care, all of which are beyond our control.

THE NATIONAL NURSERIES

“The buyer should not expect the nurseryman to guarantee his trees to live, any more than he would expect a dealer in live stock to guarantee an animal to reach a specified age. If the nurseryman agrees to replace trees that die, he **must charge for it**. He cannot give something for nothing any more than the butcher or grocer. Too often the agreement to replace breeds carelessness in the buyer. All the buyer should ask of the nurseryman is that the tree reach him in good condition for setting.”—Albert Dickens of the Kansas Agricultural College in “Farmers’ Mail and Breeze.”

SHIPPING SEASONS are controlled by climatic conditions rather than by calendar dates, for which reason we are unable to name dates of shipment. Some years, an “early fall” with cool days and frosty nights, brings early maturity to our products, enabling us to dig and ship in the latter part of October, but in the following year a “late fall” may force these digging and shipping operations well into November. Similarly, an “early spring” will permit digging and shipping in late March, while a “late spring” may retard these operations several weeks.

Nursery stock cannot be successfully handled until it has completed its growth in the fall nor until frost leaves the ground in the spring; **weather being the controlling factor, not the calendar.**

A FEW REQUESTS IN RELATION TO BOOKING ORDERS

Agents must look up the financial standing of all customers. Guard against doubtful orders. Do not waste time with people who are not in the habit of meeting their local obligations promptly, or people who are not financially responsible.

Build up compact deliveries by working your territory thoroughly.

Fill out the orders plainly and correctly. Consult the sample order blank often and be sure that

LAWRENCE, KANSAS

the items ordered, the price for each item and the total are correct before you hand the order to customer for signature.

The Carbon Paper enclosed with the outfit will enable you to make out a duplicate order for the customer at the same time you are writing the original. Never overlook this, as it is important that customers have an exact copy of their orders for future reference.

SEND THE ORIGINAL ORDER TO US and leave the duplicate or carbon copy with the customer.

Spring and Fall Orders must be written on separate blanks.

Copy the name of the customer plainly on the line indicated for that purpose.

SMALL ORDERS-Because of the increased cost of land, labor, implements, packing material, etc., there is little profit on orders amounting to less than \$8.00 or \$10.00, but as an accommodation to customers we will accept orders as small as \$5.00.

Married Women's Names. Very often our lady customers tell us that they did not receive their notice of delivery. This is usually because so many married women do not sign their names uniformly. Ask married women to always give you the names of their husbands, thus: Mrs. James S. Smith, not Mrs. Mary Smith or Mrs. J. S. Smith. Explain, if necessary, that we desire this so they will get their notice of delivery promptly.

QUANTITY RATES

Where stock is listed "per 10", five or more may be sold at the **TEN** rate.

Where "dozen" rate is given, six or more may be sold at the **DOZEN** rate.

Twenty-five or more at **HUNDRED** rate.

Two hundred fifty or more at **THOUSAND** rate.

THE NATIONAL NURSERIES

Customer may select as many varieties as desired of the same class of stock, provided the price for all varieties selected is the same, as in Apple, Peach, Cherry, etc.

Where the price differs on varieties, as with Grapes, the quantity rate will apply only on varieties listed at the same price.

THE NATIONAL NURSERIES

ORNAMENTAL TREES

All First-Class in Size and Quality

Note 1.—The size mentioned after each variety is that considered proper for first class trees suitable for transplanting. The size varies according to the habit of growth of the varieties mentioned, as, of course some trees when fully grown, are smaller than others, but equally as good.

Note 2.—We divide the ornamental trees into two classes: those suitable for street planting (Class A), those suitable for lawns (Class B). Those that can be used for either are marked (A and B).

	Each	Per 10
Ash, American.....6-8 ft. (A)	\$1.50	\$14.50
Birch, Cut Leaf.....6-8 ft. (B)	5.00	
Black Locust.....6-8 ft. (A)	1.50	14.50
Box Elder.....6-8 ft. (A)	1.50	14.50
Catalpa Bungei or Umbrella Tree..6-8 ft. (B)	4.00	
Catalpa Speciosa.....6-8 ft. (A-B)	1.50	14.50
Crab, Bechtel's.....3-4 ft. (B)	2.50	24.50
Elm, Am.....6-8 ft. (A)	1.50	14.50
Elm, Am.....8-10 ft. (A)	2.50	24.50
Hackberry.....6-8 ft. (A)	3.00	29.50
Honey Locust.....6-8 ft. (A)	2.50	24.50
Horse Chestnut.....6-8 ft. (A-B)	5.00	
Linden, Am.....6-8 ft. (A-B)	3.00	29.50
Linden, European....6-8 ft. (A-B)	3.00	29.50
Maple:—		
Ash Leaf (See Box Elder)		
Norway.....6-8 ft. (A)	4.00	
Schwedlers Purple Leaf.....5-6 ft. (B)	6.00	
Sugar or Hard.....6-8 ft. (A)	3.00	29.50
Silver Leaf.....6-8 ft. (A)	1.50	14.50
Silver Leaf.....8-10 ft. (A)	2.00	19.50

LAWRENCE, KANSAS

Ornamental Trees—Continued

		Each	Per 10
Mountain Ash			
European.....	6-8 ft. (B)	\$2.50	\$24.50
Mulberry			
Downing.....	5-6 ft. (B)	3.00	29.50
Russian.....	5-6 ft. (B)	1.00	9.50
New American.....	5-6 ft. (B)	3.00	29.50
Oriental Plane or Euro- pean Sycamore....	6-8 ft. (A)	2.50	24.50
Poplar			
Carolina.....	6-8 ft. (A)	1.00	9.50
Carolina.....	8-10 ft. (A)	1.25	12.00
Norway.....	6-8 ft. (A)	1.25	12.00
Rose Acacia.(B)	Long, graceful clust- ers of pea-shaped, rose colored flowers in May and June. Top grafted on stems about 3-4 ft.	5 00	
Sycamore, Am.Plane	6-8 ft. (A)	2.00	19.50
Tulip Tree.....	6-8 ft. (B)	3.00	29.50

We recommend the 6-8 ft. shade trees for best results. If customers order this size, they should have very little loss, if any, in transplanting.

Ivy, Am. or Virginia Creeper.....	1.00	9.50
Wistaria, Purple.....	1.00	9.50

ORNAMENTAL SHRUBS

No lawn or yard, whether large or small, is either complete, attractive or homelike without a certain amount of flowering shrubs.

Properly arranged they in no way encroach upon the lawn. They not only add beauty and adornment, but at the same time can be used as screens to cover unsightly objects or fences, and break the foundation line of the house. They are indispensable, besides lend a cheerful homelike effect. A few dollars spent in shrubs will often add more value to a property than hundreds of dollars spent in other ways.

When the size is mentioned after upright shrubs, it is such as we consider proper for first class plants, suitable for transplanting. The size varies according to the habit of growth of the varieties mentioned, as, of course some plants when fully grown are smaller than others, but equally as good.

**Our Shrubs are Clean and Thrifty, Strictly
First Class**

LAWRENCE, KANSAS

COLLECTION - - - \$10.00**

PERENNIAL PHLOX

Phlox is one of the most easily grown hardy perennials, and the large number of beautiful varieties now offered makes it especially desirable. These noble flowers are not only beautiful as in-

THE NATIONAL NURSERIES

dividuals, but the cheerful appearance of our gardens during the summer and autumn months is much indebted to them. They succeed in any position or soil, and can be used to advantage either as single specimens in the mixed border or as large clumps or beds on the lawn. The ease with which they are cultivated, their entire hardiness and the extended time of blooming, combined with the varied and beautiful coloring, make them especially valuable for garden planting. The perennial Phlox usually commence to bloom in early summer, and are brilliant with color until after several frosts have come.

Strong Field Grown Stock

Price 50c each

A choice list of varieties—

BRIDESMAID, white with large crimson center.

FANTOME, deep lavender, edged and shaded with white, dwarf.

Crested Moss, deep pink Perpetual White
Perpetual Red

FOREST TREE SEEDLINGS—ONE YEAR

Seedlings are tied 100 plants to the bunch. No orders will be accepted for less than 100 plants of a variety.

PRICE—12-18 in. \$5.00 per 100, \$40.00 per 1000

Ash	Honey Locust
Black Locust	Maple Silver Leaf (soft)
Box Elder	Mulberry, Russian
Catalpa, Speciosa	Osage Orange Hedge
Elm, Am.	

ORNAMENTAL HEDGING

	Per 100	Per 1000
Barberry, Thunberg's, 12-18 in	\$50.00	
Privet, California, 18-24 in.....	20.00	
Privet, Amoor River, 18-24 in.....	30.00	

Privet is sold only in multiples of 25 each. No order accepted for less than 25 plants.

We recommend the AMOOR RIVER PRIVET, because of its extreme hardiness.

Privet and Barberry should be planted one foot apart in the row, requiring 100 plants for every 100 feet of hedge row.

LAWRENCE, KANSAS

THUNBERG'S BARBERRY makes the best hedge where no trimming is desired. The foliage turns to a riot of brilliant colors at frost time, and its graceful drooping branches are then covered with small red berries. Hardy everywhere.

Important Notice

Confine all sales to varieties in this list, which permits of a generous selection of best kinds suitable for all territory.

We have no varieties to offer except the kinds mentioned in this Price List.

If you don't find it in this price book, don't sell it.

SUITABLE DISTANCE FOR PLANTING

Apples	30 to 40 feet apart each way
Standard Pears and Cherries	20 feet apart each way
Plums, Peaches and Apricots	16 to 18 feet apart each way
Dwarf Pears and Quinces	10 to 12 feet apart each way
Grapes	rows of 10 to 16 feet apart; 7 to 10 feet in rows
Currants and Gooseberries	4 feet apart
Raspberries and Blackberries	3 to 4 by 5 to 7 feet
Strawberries, for field culture	1 by 3 to 3½ feet
Strawberries, for garden culture	1 to 2 feet apart

NUMBER OF TREES OR PLANTS TO THE ACRE

40 feet apart each way	28	10 feet apart each way	435
30 feet apart each way	48	8 feet apart each way	680
20 feet apart each way	110	6 feet apart each way	1210
18 feet apart each way	135	5 feet apart each way	1745
15 feet apart each way	205	4 feet apart each way	2725
12 feet apart each way	300	3 feet apart each way	4840

RULE—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant, which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to the acre.
